

# VHT Cs

## High Temperature Series

ARTS Energy's VHT high temperature Ni-MH series are perfectly suited to professional applications requiring a battery with an exceptional robustness. It is designed to operate in very demanding environment (from -40°C to +85°C).

The VHT Cs can be fast charged with a maximum current of C/3, and offers an exceptional life duration. The VHT Cs delivers a huge number of full or partial cycles: 2000 full cycles and even 5000 cycles with 50% DOD (Depth Of Discharge).

To meet customers' requirements, ARTS Energy provides custom-designed and standardized battery packs.
